- Quick sign-in possible from multiple locations
- Fast access to all sales and easy tendering
- Seamless integration with many inventory and accounting systems
- Supports handheld terminals
- Data analysis with BI tools
- Time attendance registration

FAST AND EFFICIENT

The highly flexible and customizable interface allows tailoring the menus on the screen to each and every cafeteria's requirement. That ensures minimum transaction time as well as decreased training costs.

Centara offers a multitude of features that are essential for fast service: Quick sign-in, fast access to all sales, easy tendering and adaptable menus.

Quick sign-in is available with various methods such as sign-in with one keystroke, secure sign-in with PIN number, special hardware sign-in, scanned sign-in or swipe card sign-in.

Centara is one of the fastest point-of-sale systems on the market. Lower total cost of ownership and improved productivity are the main elements to look forward to when setting up Centara.

Flexible on-screen menus and tailor-made manager functions along with extensive reporting abilities and reliability, give Centara the leading edge managers are searching for when choosing a system.

Intuitive design and user interface cuts down training time enabling managers to make the most of the system and allows for effortless sales, adding items or adjusting prices.

The system operates on most known POS hardware and easily communicates with other software.

PRECISE AND FLEXIBLE APPLICATIONS

The intuitive actions and configurable interface make Centara exceptionally easy to use and allows new staff to get comfortable with the use of the system within minutes.

COMPANY "LOOK AND FEEL"

The design with flexible on-screen menus and different start-up menus for different locations or cashiers, can easily be tailored to suit the requirements of each operation.

CUSTOMER CENTERED

Handling customers with stored value cards, calculating employer's share of the cost of meals and handling employee's tax benefits.

Centara also supports various other stored value items like vouchers, electronic gift cards and coupons. All discounts and supervision is controllable by the manager.

REPORTS FOR ANALYSIS AND PLANNING

Centara's standard reports show the key performance indicators. End-of-the-month customer statements can be generated for both the cardholders and the employer. Further reports are easily added.

Standard reports show the key performance indicators such as the most popular sales items, profit margins, discounts and promotions, etc.

Reports can be collected from various locations and sent to headquarters. This can be done daily or more frequently.

SUPERIOR PERFORMANCE – ALL THE TIME

Centara has built-in redundancy features that allows staff to keep serving customers even if other connected systems go offline.

Centara is based on Microsoft SQL and .NET technologies and is certified ARTS data model conformant. The technology platform guarantees a reliable and proven architecture.

KITCHEN DISPLAY SYSTEM

Centara's kitchen display system gives the managers the opportunity to control the preparation displays with varying staff and menus throughout the day.

Centara also supports multiple kitchen printers and kitchen bump-bars are available.

In order to increase control and efficiency Centara can be connected to kitchen video systems and other systems such as camera surveillance systems.
