

Centara is one of the fastest point-of-sale systems on the market. Lower total cost of ownership and improved productivity are the main elements to look forward to when setting up Centara.

Flexible on-screen menus and tailormade manager functions along with extensive reporting abilities and reliability, give Centara the leading edge managers are searching for when choosing a system.

Intuitive design and user interface cuts down training time enabling managers to make the most of the system and allows for effortless sales, adding items or adjusting prices.

The system operates on most known POS hardware and easily communicates with other software.

FURNITURE

Centara furniture solution makes room for simple point-of-service tills, servicing the in-store customer along with Raincheck modules allowing delayed delivery of furniture that are neither in stock nor at hand.

Seamless integration with ERP solutions and extensibility to fit almost any size of business, makes Centara very valuable to the owner or the manager.

- Central POS management
- Continues working if other systems go offline
- Scalable up to large installations
- Extensive discount/offer module
- Built-in gift card and loyalty solution
- Flexible on screen menus for multiple locations
- Full support for furniture tills
- Delivery slips with barcodes
- Fraud management
- Supports RF-ID
- Supports handheld terminals
- Multiple currencies
- Seamless integration with many inventory and accounting systems
- Data analysis with BI tools
- A wide range of standard reports
- Time attendance registration

OFFER RAINCHECK TO YOUR CUSTOMERS

By using Raincheck, businesses are able to grant their customers secure purchases of items that are neither in stock nor at hand, and might not even be in production yet.

Raincheck enables the clients to ultimately acquire the equipment or furnishings they desire.

Raincheck can be created at the till and in the Raincheck manager data viewer, all submitted data can be viewed along with the items in transaction and payments.

Centara supports all main discount and special offer solutions with the Discount Offer Module which can easily be tailored to special needs and interests.

Any discount, daily or weekly specials, "Two for one", holiday special offers, "Off season bargains" etc., can be turned on or off with the discount module.

Centara also supports various stored value items like electronic gift cards, and items such as vouchers and coupons.

All offers and discounts can be controlled from a centralized base with the discount module.

COMPANY "LOOK AND FEEL"

The design with flexible on-screen menus and different start-up menus for type tills and various locations, can easily be tailored to suit the requirements of each establishment.

ENCOURAGES REPEAT BUSINESS

Centara supports various programs with focus on the customer, such as loyalty plans and gift cards and suggests advanced possibilities for promotions and miscellaneous offers.

RAINCHECK

Raincheck allows stores to provide customers with the opportunity to place orders for articles for future delivery at a pre-arranged price.

This may also be used when a customer wants to reserve an item and collect it only upon full and final payment.

Automatic notifications are emailed to the customer when the status of a Raincheck changes or it is ready for pickup.

REPORTS FOR ANALYSIS AND PLANNING

Centara offers a number of options when it comes to viewing and analysing sales data. Standard reports show the key performance indicators such as the most popular sales items, profit margins, discounts and promotions, etc.

Reports can be collected from various locations and sent to headquarters. This can be done daily or more frequently.

SUPERIOR PERFORMANCE – ALL THE TIME

Centara has built-in redundancy features that allows staff to keep handling customers even if other connected systems go offline.

Centara is based on Microsoft SQL and .NET technologies and is certified ARTS data model conformant. The technology platform guarantees a reliable and proven architecture.
